The Campaign Probe Is Now Drilling Away

Correspondence Between Late
Harriman and Roosevelt.

COMPLETE FILE MADE PUBLIC

Letters Purported to Show the Gen-
eral Close Relations Existing at
One Time Between the Railway
Magnate and the Former President
in Regard to Government Matters.
Receipt For \$50,000 Displayed.

Washington, Oct. 1.—A complete
record of the correspondence be-
tween the late E. H. Harriman and
Mr. Roosevelt was laid before the
senate investigating committee from
the letter file of the late railroad man.
These letters purported to show the
general close relations existing at
one time between Mr. Harriman and
Mr. Roosevelt in regard to "govern-
ment matters, and tended to show
that the financier was consulted by
Mr. Roosevelt on several occasions in
regard to appointments. One of these
appointments seems to have been a
cabinet officer. Another, it is claimed,
involved the governorship of Ariz-
ona and the chief justiceship of the
supreme court in that state.

Mr. Harriman was opposed to the
appointment of B. A. Fowler as gov-
ernor of Arizona. He objected be-
cause, he contended, Mr. Fowler was
a strong friend of the Santa Fe rail-
road. Mr. Roosevelt did not see how
he could avoid appointing him, be-
cause he was committed to his can-
didacy and because Paul Morton, a
Santa Fe man, was a member of his
cabinet. According to the letters,
Mr. Roosevelt assured Harriman,
however, that he would "twist Fow-
ler's neck as if he was a chicken" the
moment he found he was showing a
particle of favor to the Santa Fe. Mr.
Harriman, it seems, persisted in his
opposition to Fowler, and he was not
appointed.

The record of correspondence be-
tween Mr. Harriman and Mr. Roose-
velt, beginning as far back as 1901,
shows that Mr. Roosevelt himself
was frequently urging the railroad
man to come to the White House to
dinner and luncheon.

Harriman's Former Secretary Called.
C. C. Tegethoff, Mr. Harriman's for-
mer secretary, produced a receipt,
signed by the late Cornelius N. Bliss,
treasurer of the Republican national
committee, for \$50,000 contribution
made by Mr. Harriman to the Roose-
velt fund. This receipt was signed
on Nov. 2, a few days before the 1904
election, and represented a part pay-
ment of the \$250,000 contribution
raised by Mr. Harriman. The impor-
tance of the Bliss receipt lies in the
fact that Colonel Roosevelt had con-
tended that this money was not
raised to help out his cause, but to
save the state ticket, and went not
to the national committee, but to the
state chairman, Odell.

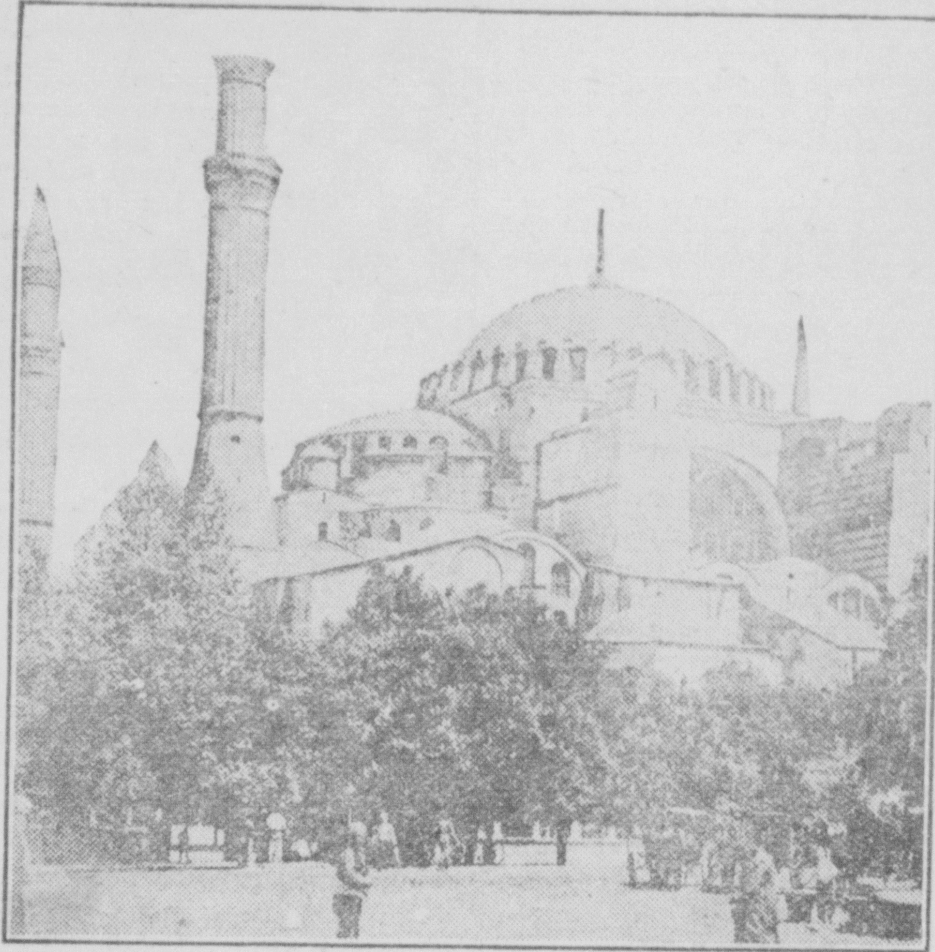

The session also brought out the
first official statement of the sums
raised by the Republican national
committee from 1892 down to 1904.
These figures were presented by C.
Bliss, Jr., from a letter written by
his father just before he resigned as
treasurer of the national committee.
Here are the figures for the four cam-
paigns as given by Mr. Bliss: 1892,
\$1,600,000; 1896, \$3,500,000; 1900, \$3-
000,000; 1904, \$2,088,000.

These contributions do not, of
course, include the gifts to the Re-
publican congressional committee or
to the state committees. The contribu-
tions to the 1896 campaign have
been estimated much higher, as high,
in fact, as \$10,000,000.

Municipal Telephone System.
Cleveland, O., Oct. 1.—Municipal
ownership and operation of a tele-
phone system is contemplated in a
resolution adopted by the city coun-
cil. It is held that the city, under the
"home rule" provision of the state
constitution, is empowered to own
and operate a telephone system.

I. & R. Now Effective.
Columbus, O., Oct. 1.—The initia-
tive and referendum amendment to
the Ohio constitution becomes opera-
tive Tuesday—the first of the 34 new
amendments to go into effect.

Famous Mosque of St. Sophia,
Now In Danger of Collapse

ONE of the results of the recent Turkish earthquake is believed to have
been the weakening of the walls of the mosque of St. Sophia, in Con-
stantinople, to such a point that the collapse of its huge dome is feared.
This building, one of the most famous in the world, is nearly 1,400
years old. It was a Christian church when the eastern empire was flourishing
under Justinian, who built it, and throughout the rest of the history of
the empire, until at the capture of Constantinople by the Turks in 1453 it became
a Mohammedan mosque. The Turks have taken no adequate measures to pre-
serve this finest existing specimen of Byzantine architecture, nor have they,
it is said, ever taken pains to classify or catalogue the treasures of art and
literature supposed to be buried in the enormous vaults beneath it. Their
failure to do so—if indeed they have not long since destroyed them—is at-
tributable to the Turkish contempt for other literature than the Koran and the
Mohammedan religious prejudice against the graphic arts which were believed
to foster idolatrous practices.

RETAIL DEALERS FAVOR IT

License Granted Saloon Keeper Holds
Good Until Revoked.

Licenses Good Until Revoked.

Columbus, O., Oct. 1.—Ohio retail
liquor dealers, according to the plans
of their leaders, will back a proposal
that the licenses granted saloon keep-
ers under the new constitutional
amendment hold good until revoked,
instead of being issued annually. With
this provision, the liquor dealers say,
they will leave it to the legislature
to decide, without recommendation,
who shall issue licenses. Albert
Eisele, president of the Cuyahoga
Retail Liquor Dealers' association,
favors this plan. "In no other way
can the saloons be taken out of pol-
itics," he said.

Young Girl Attacked In Home

Terribly Beaten By Unknown Man
Who Hid In Her Room.

Corning, N. Y., Oct. 1.—Miss Mabel
White, 19, music teacher, was terri-
bly beaten by an unknown man, who
hid in her room, threw a blanket over
her head to smother her outcries and,
after beating her skull with a blunt
instrument, dragged her body to a
staircase and hurled it to the landing
below, where he buried it beneath
chairs, tables and furniture thrown
from above. Half dead, the girl was
dragged out by her mother. The as-
sailant made his escape by a side
door. The girl is in a very serious
condition.

Before the assault, the man had at-
tempted to pour carbolic acid down
the girl's throat, but succeeded only
in spilling it, burning her face and
neck. Before striking the girl her as-
sailant said: "Why did you not do as
the letters told you?" but he did not
wait for an answer.

Austin Andrew, a young man from
the neighboring town of Millerton, is
held as a suspect.

BY OUTWARD FORCE

Physician Testifies That Mrs. Szabo
Died of Strangulation.

Goshen, N. Y., Oct. 1.—His first day
in court listening to the examination
of witnesses against him, Burton W.
Gibson spent at the side of his wife.
The most damaging evidence against
the lawyer and the evidence on which
prosecution says he will presuma-

effect that the lawyer's client died of
strangulation effected by "outward
force."

Selecting Jury In Riot Case At Lawrence

Trial of Caruso, Ettor and Giovan-
nitti Resumed Today.

Salem, Mass., Oct. 1.—When the
Essex county superior criminal court
reopened today, but two jurors had
been selected in the cases of Joseph
Caruso, as principal, and Joseph J.
Ettor and Arturo Giovannitti as ac-
cessories before the fact to the mur-
der of Anna Lopez at Lawrence,
during a strike riot there on Jan. 29
last. A considerable number of tales-
men were excused because of their
opposition to the death penalty and
many more because they had formed
an opinion.

Ettor and Giovannitti are leaders of
the Industrial Workers of the World,
and Caruso was a mill worker at
Lawrence, and the excitement of the
trial is felt all over the city. Crowds
began early to drift toward the court-
house. In and around the courthouse
was a large force of police.

Judge Joseph P. Quinn is presiding
at the trial. No visitors are admit-
ted into the courthouse.

At the opening of the trial Judge
Quinn overruled the motion for a bill
of particulars in the case of Caruso
and overruled all other motions
not already granted to the other de-
fendants. Judge Quinn then delivered
a carefully prepared address to the
talesmen.

Fred Moore of Los Angeles is chief
attorney for the accused.

Marines On the Job At Granada

Arms Collected Will Be Returned to
Nicaraguan Government.

Washington, Oct. 1.—Admiral
Southernland has returned to Managua,
leaving Major Butler in charge of
things at Granada, according to dis-
patches to the navy department from
Nicaragua. Major Butler is keeping
the Third battalion of marines and a
large body of bluejackets with him
in Granada. He is now engaged in
collecting all the arms and ammuni-
tion in the hands of the paroled reb-
els and others. These, which were
the property of the Nicaraguan gov-
ernment, will be returned to the ad-
ministrative authorities at Managua.

Progressive Ousted.

Columbus, O., Oct. 1.—On his own
written statement that he was a Bull
Moose and not a Republican, C. E.
Ruefley of Canal Dover was removed
from the Tuscarawas county board of
elections and U. D. Miller appointed
in his place.

Webb C. Hayes Married.

Fremont, O., Oct. 1.—Colonel
Webb C. Hayes, son of the former
president, and Mrs. Mary O. Brinker-
hoff were married here and left for
a wedding tour of the east.

IS REPORTED MURPHY WILL ABANDON DIX

Graves Stirs Bull Moosers By Adverse Conclusion

He Declares the Dual Nominee
Plan to Be Invalid.

RENDERS FAR-REACHING RULING

Knocks Out Progressive County, Con-
gressional and Assembly Tickets In
Four-fifths of the Counties of the
State—Bull Moose Hold Decision
Appealable and Will Go to the
High Court.

Columbus, O., Oct. 1.—Secretary of
State Graves knocked out Progres-
sive county, congressional and assem-
bly tickets in four-fifths of the coun-
ties of the state. He stated he ren-
dered the decision not as a mini-
sterial officer but as a judicial officer.
Wherefore, he gave as sufficient an-
swer to the request of the Progres-
sive party attorneys, that he consult
General Hogan, that there was no
more reason why he should ask the
opinion of the attorney general in
this case than there would be for the
supreme court to consult the attorney
general how to decide a case.

He regards his decision as final.
Attorneys for the Progressives re-
gard it as reviewable by the courts
and will contest that question by ask-
ing leave to file a petition in man-
damus in the supreme court. That
action would be taken was stated at
Toledo by State Chairman Walter F.
Brown, who will be in Columbus to-
day.

Petitions must be filed and nomi-
nations must be certified by Oct. 5,
but it was said this provision will not
stand in the way of a court decision
after Oct. 5 as to the validity of nomi-
nations.

Secretary of State Graves' decision
rests upon new ground and, so far as
has been ascertained, is without
precedent. He held it is permissible
to print names twice on the ballot, but
laid down conditions impossible for
the Progressives to comply with. He
held that a party nominee could be
indorsed as an independent candi-
date without party name or appella-
tion, and then it would be proper to
print his name both on the party
ticket and separately under the head-
ing "Independent."

He recognized the Progressives as
being a party, and held that to be
valid a party nominee must be cer-
tified as representing the principles of
a party. He asserted that a certifi-
cate that a candidate who had been
certified as a Republican represented
the principles of the Progressive
party was untruthful and should be
rejected.

New Orleans Cotton Broker in an

New York, Oct. 1.—Four trunks be-
longing to Morris Wolf, a cotton bro-
ker of New Orleans, who got in with
his wife on the steamship George
Washington, were sent by the cus-
toms officials to the public stores.
Mr. Wolf had only declared \$300
worth of foreign purchased goods and
the customs men told him that they
found in one of his trunks gowns be-
longing to his wife which they say
were purchased abroad and which
had the labels torn off. They said
the value of these dresses would
come to between \$1,500 and \$2,000.

New York, Oct. 1.—Stock of the
Singer Manufacturing company is val-
ued at \$480 a share, with par value of
\$100, in the appraisal of the estate of
Mrs. Josephine Blanche Chambers.

Finds the Governor Not In High
Favor at Syracuse.

BIG CONVENTION OPENS TODAY

Judge Victor Dowling and Congress-
man Sulzer Among the Leading
Candidates in Opposition to Dix
For Democratic Nomination For
Governor of New York—Tammany
Chief Makes a Significant Remark.

Syracuse, N. Y., Oct. 1.—The open-
ing of the Democratic state conven-
tion today found a sharply drawn is-
sue over the renomination of Gov-
ernor Dix. All morning opponents of
the governor massed their forces
around the headquarters of Leader
Charles F. Murphy of Tammany Hall
to urge him to withdraw his support
from the governor. Before the con-
vention opened they claimed to have
won a victory. They asserted that
the governor would not be renom-
inated and that availability of other
candidates was being considered.

Justice Victor Dowling of New
York and Congressman William Sul-
zer are said to be the leading candi-
dates in opposition to Governor Dix.
Others talked of were Martin H.
Glynn of Albany, temporary chairman
of the convention; John Purroy
Mitchell, president of the board of
aldermen of New York; Supreme
Court Justice James W. Gerard, Lieut-
enant Governor Thomas F. Conway,
Thomas D. Lockwood and Senator
George B. Burd of Buffalo.

The forces fighting for Governor
Dix's renomination are no less active
than those making the struggle
against him. The governor heartened
his followers when he sent a tele-
phone message from Albany, declar-
ing unqualifiedly that his name would
go before the convention and that he
would not withdraw for either friend
or foe.

Mr. Murphy remarked significantly
that the convention would undoubt-
edly have many candidates for the
governorship. Those close to Murphy
said he had talked of the availability
of Justice Dowling and Congressman
Sulzer and from this they inferred
that he might recede from his sup-
port of Governor Dix.

Nominations for the state ticket are
not expected until Thursday.

Missing Man Witness In Becker Case Is Located

Runaway Witness In Becker Trial
Wanted In New York.

New York, Oct. 1.—Assistant Dis-
trict Attorney William A. DeFord is
on his way to London for a runaway
witness in the Becker trial, Thomas
Coupe, who as a clerk in the Elks
club saw the murderers of Herman
Rosenthal escaping in the gray auto-
mobile and who afterwards identified
three of them. Scotland Yard has
written to District Attorney Whitman
that Coupe says he was driven to
leave New York by the fear that the
police would kill him. Mr. DeFord's
mission is to get Coupe to return to
tell that story in court or to persuade
him to make a deposition.

Artificial Gas Valuation.

Columbus, O., Oct. 1.—In a report
of the assessment of artificial gas
companies of Ohio by the state tax
commission, a net increase in valua-
tion of \$100,920 is shown. The gross
valuation is \$1,114,200, while the de-
creases of the various companies ag-
gregate \$7,480. The list of artificial
gas companies now on the state
books reaches 15, but it is said at
the office of the tax commission that
it is steadily decreasing.

The Campaign Probe Is Now Drilling Away

Correspondence Between Late
Harriman and Roosevelt.

COMPLETE FILE MADE PUBLIC

Letters Purported to Show the Gen-
eral Close Relations Existing at
One Time Between the Railway
Magnate and the Former President
In Regard to Government Matters.
Receipt For \$50,000 Displayed.

Washington, Oct. 1.—A complete
record of the correspondence be-
tween the late E. H. Harriman and
Mr. Roosevelt was laid before the
senate investigating committee from
the letter file of the late railroad man.
These letters purported to show the
general close relations existing at
one time between Mr. Harriman and
Mr. Roosevelt in regard to "gov-
ernment matters, and tended to show
that the financier was consulted by
Mr. Roosevelt on several occasions in
regard to appointments. One of these
appointments seems to have been a
cabinet officer. Another, it is claimed,
involved the governorship of Ariz-
ona and the chief justiceship of the
supreme court in that state.

Mr. Harriman was opposed to the
appointment of B. A. Fowler as gov-
ernor of Arizona. He objected be-
cause, he contended, Mr. Fowler was
a strong friend of the Santa Fe rail-
road. Mr. Roosevelt did not see how
he could avoid appointing him, be-
cause he was committed to his candi-
dacy and because Paul Morton, a
Santa Fe man, was a member of his
cabinet. According to the letters,
Mr. Roosevelt assured Harriman,
however, that he would "twist" Fowler's
neck as if he was a chicken "the
moment he found he was showing a
particle of favor to the Santa Fe. Mr.
Harriman, it seems, persisted in his
opposition to Fowler, and he was not
appointed.

The record of correspondence be-
tween Mr. Harriman and Mr. Roose-
velt, beginning as far back as 1901,
shows that Mr. Roosevelt himself
was frequently urging the railroad
man to come to the White House to
dinner and luncheon.

Harriman's Former Secretary Called.
C. C. Tegethoff, M. Harriman's for-
mer secretary, produced a receipt,
signed by the late Cornelius N. Bliss,
treasurer of the Republican national
committee, for \$50,000 contribution
made by Mr. Harriman to the Roose-
velt fund. This receipt was signed
on Nov. 2, a few days before the 1904
election, and represented a part pay-
ment of the \$250,000 contribution
raised by Mr. Harriman. The impor-
tance of the Bliss receipt lies in the
fact that Colonel Roosevelt had con-
tended that this money was not
raised to help out his cause, but to
save the state ticket, and went not
to the national committee, but to the
state chairman, Odell.

The session also brought out the
first official statement of the sums
raised by the Republican national
committee from 1892 down to 1904.
These figures were presented by C.
Bliss, Jr., from a letter written by
his father just before he resigned as
treasurer of the national committee.
Here are the figures for the four cam-
paigns as given by Mr. Bliss: 1892,
\$1,400,000; 1896, \$3,500,000; 1900,
\$3,000,000; 1904, \$2,688,000.

These contributions do not, of
course, include the gifts to the Re-
publican congressional committee or
to the state committees. The contri-
butions to the 1896 campaign have
been estimated much higher, as high
as \$10,000,000.

Municipal Telephone System.
Cleveland, O., Oct. 1.—Municipal
ownership and operation of a tele-
phone system is contemplated in a
resolution adopted by the city coun-
cil. It is held that the city, under the
"home rule" provision of the state
constitution, is empowered to own
and operate a telephone system.

I. & R. New Effective.
Columbus, O., Oct. 1.—The initia-
tive and referendum amendment to
the Ohio constitution becomes opera-
tive Tuesday—the first of the 34 new
amendments to go into effect.

Famous Mosque of St. Sophia,
Now In Danger of Collapse

ONE of the results of the recent Turkish earthquake is believed to have
been the weakening of the walls of the mosque of St. Sophia, in Con-
stantinople, to such a point that the collapse of its huge dome is feared.
This building, one of the most famous in the world, is nearly 1,400
years old. It was a Christian church when the eastern empire was flourishing
under Justinian, who built it, and throughout the rest of the history of the
empire, until at the capture of Constantinople by the Turks in 1453 it became
a Mohammedan mosque. The Turks have taken no adequate measures to pre-
serve this finest existing specimen of Byzantine architecture, nor have they,
it is said, ever taken pains to classify or catalogue the treasures of art and
literature supposed to be buried in the enormous vaults beneath it. Their
failure to do so—if indeed they have not long since destroyed them—is at-
tributable to the Turkish contempt for other literature than the Koran and the
Mohammedan religious prejudice against the graphic arts which were believed
to foster idolatrous practices.

RENDERS FAR-REACHING RULING

Knocks Out Progressive County, Con-
gressional and Assembly Tickets in
Four-fifths of the Counties of the
State—Bull Moose Hold Decision
Appealable and Will Go to the
High Court.

Columbus, O., Oct. 1.—Secretary of
State Graves knocked out Progress-
ive county, congressional and assem-
bly tickets in four-fifths of the coun-
ties of the state. He stated he ren-
dered the decision not as a minist-
erial officer but as a judicial officer.
Wherefore, he gave as sufficient an-
swer to the request of the Progress-
ive party attorneys, that he consult
General Hogan, that there was no
more reason why he should ask the
opinion of the attorney general in
this case than there would be for the
supreme court to consult the attorney
general how to decide a case.

He regards his decision as final.
Attorneys for the Progressives re-
gard it as reviewable by the courts
and will contest that question by ask-
ing leave to file a petition in man-
damus in the supreme court. That
action would be taken was stated at
Toledo by State Chairman Walter F.
Brown, who will be in Columbus to-
day.

Petitions must be filed and nomi-
nations must be certified by Oct. 5,
but it was said this provision will not
stand in the way of a court decision
after Oct. 5 as to the validity of nomi-
nations.

Secretary of State Graves' decision
rests upon new ground and, so far as
has been ascertained, is without
precedent. He held it is permissible to
print names twice on the ballot, but
laid down conditions impossible for
the Progressives to comply with. He

Finds the Governor Not In High
Favor at Syracuse.

BIG CONVENTION OPENS TODAY

Judge Victor Dowling and Congress-
man Sulzer Among the Leading
Candidates in Opposition to Dix
For Democratic Nomination For
Governor of New York—Tammany
Chief Makes a Significant Remark.

Syracuse, N. Y., Oct. 1.—The open-
ing of the Democratic state con-
vention today found a sharply drawn is-
sue over the renomination of Gov-
ernor Dix. All morning opponents of
the governor massed their forces
around the headquarters of Leader
Charles F. Murphy of Tammany Hall
to urge him to withdraw his support
from the governor. Before the con-
vention opened they claimed to have
won a victory. They asserted that
the governor would not be renomi-
nated and that availability of other
candidates was being considered.

Justice Victor Dowling of New
York and Congressman William Sul-
zer are said to be the leading candi-
dates in opposition to Governor Dix.
Others talked of were Martin H.
Glynn of Albany, temporary chairman
of the convention; John Purroy
Mitchell, president of the board of
aldermen of New York; Supreme
Court Justice James W. Gerard, Lieut-
enant Governor Thomas F. Conway,
Thomas D. Lockwood and Senator
George B. Bard of Buffalo.

The forces fighting for Governor
Dix's renomination are no less active
than those making the struggle
against him. The governor heartened
his followers when he sent a tele-
phone message from Albany, declar-
ing unqualifiedly that his name would
go before the convention and that he
would not withdraw for either friend
or foe.

Mr. Murphy remarked significantly
that the convention would undoubt-
edly have many candidates for the
governorship. Those close to Murphy
said he had talked of the availability
of Justice Dowling and Congressman
Sulzer and from this they inferred
that he might recede from his sup-
port of Governor Dix.

Nominations for the state ticket are
not expected until Thursday.

Missing Man Witness In Becker Case Is Located

Runaway Witness in Becker Trial
Wanted in New York.

New York, Oct. 1.—Assistant Dis-
trict Attorney William A. DeFord is
on his way to London for a runaway
witness in the Becker trial, Thomas
Coupe, who as a clerk in the Elks
club saw the murderers of Herman
Rosenthal escaping in the gray auto-
mobile and who afterwards identified
three of them. Scotland Yard has
written to District Attorney Whitman
that Coupe says he was driven to
leave New York by the fear that the
police would kill him. Mr. DeFord's
mission is to get Coupe to return to
tell that story in court or to persuade
him to make a deposition.

Artificial Gas Valuation.

Columbus, O., Oct. 1.—In a report
of the assessment of artificial gas
companies of Ohio by the state tax
commission, a net increase in valua-
tion of \$100,920 is shown. The gross
valuation is \$1,114,200, while the de-
crease of the various companies ap-
proximate \$7,480. The list of artificial
gas companies now on the state
books reaches 15, but it is said at
the office of the tax commission that
it is steadily decreasing.

THE ELECTION POLL.

Those great metropolitan daily newspapers, The Cincinnati Enquirer, The Boston Globe, The New York Herald, The Chicago Record-Herald, The St. Louis Republic, The Denver Republican and The Los Angeles Times, have completed the September election poll.

These great newspapers, each one assigned its own particular territory have carefully, through trusted and capable agents, fairly combed the nation from conservative New England to radical California, and from doubtful Wisconsin to the Mexican border in an effort to get at the exact pulse beat of the people on the political issues and political candidates.

That poll or "straw vote" taken by these great newspapers, all of them in reality independent papers—with a desire solely to give their readers the exact facts, prophecies the election of Woodrow Wilson with probably a greater vote in the electoral college, than another candidate ever received.

The poll shows the Republican party to be rent in twain from coast to coast and from lakes to gulf.

The split is peculiar to no one section and is as wide as the division between the two old parties. The statistics gathered by the great newspaper poll show that President Taft is running third with Wilson far in the lead. Owing to peculiar political conditions in Wisconsin and Illinois, where the Democrats have not put up strong state tickets, those great states formerly rock-ribbed Republican have been classified as doubtful.

Of course the poll is only an indication. It records the sentiment of only a portion and a very small portion of the voters, and the general results announced are obtained only by assuming that the same sentiment expressed by the few will hold good proportionately with the many.

Then, too, this is only September and it is five weeks until the vote will be legally and finally cast, and a change in the present trek of the voters may occur, but expert forecasters now see nothing which would warrant a prediction that a change is likely to occur. Indeed the newspaper poll shows that the slumping off of votes from the Republican party has grown stronger each day.

The experts describe the conditions as mere mathematical problems—is a divided one-half greater than either part of a divided one-half—manifestly yes, and the poll merely furnishes cumulative evidence of that well known fact.

During several presidential campaigns this chain of newspapers has conducted a poll which has proven wonderfully correct in its prophecy of results and the plan this year is the one which has been demonstrated to be so reliable in the past.

Trained Eyes

Great Help to be Able to See Things

By F. R. O. CARPENTIER

THE world is littered with failures caused by eyes that could not see opportunity at the door. The combination of the untrained eye and the untrained mind is a handicap that ties the world to drudgery. It is the man whose eye sees beneath the surface of things who wins success.

Accurate observation is one of the rarest arts in the world. The untrained eye jumps to conclusions that have no reality in fact. The mind is blinded and deceived by eyes that lie. It is a common occurrence in court to have two honest witnesses differ diametrically upon essential points of their testimony. Try to describe from memory your most intimate friend so that a stranger could pick him out of a crowd and you will discover how little you have been using your eyes.

It is the man or woman who sees things overlooked by others, things to which others have been blind, who achieves success. It was because Watt could see an enormous power of tremendous potentiality in the steam which lifted the lid of the bubbling tea kettle that we have the steam engine of today, and yet steam had been making noisy tea kettles for thousands of years for unseeing eyes. And it is the same in all the great discoveries that have changed this world from savagery to civilization. It is the art of seeing with trained eyes.

The boy or girl who sets out deliberately to train eye and the registering mind to accurate observation has taken the first great step in real self-education. They are giving themselves the best equipment for the battle of life and preparing themselves to welcome opportunity.

It was a young man who had trained himself to see under the surface of things who made a fortune out of discarded tin cans in a western mining camp. The cans littered the streets and alleys where they had been thrown by the hungry, careless miners. They were kicked about and trodden upon by hundreds of money-mad men daily, but he one day noticed that one of the waste cans, partly submerged in the water that was pumped from the mines, collected a thin coat of copper. He saw that thousands of dollars' worth of copper in solution was going to waste in the water that poured from the mines. He saw that the tin cans caught this fleeing copper and precipitated it. In a few years he was one of the nation's mining magnates.

Train the eye to see things as they are, to see things which the most of us are overlooking as commonplace. Nature is still holding back many secrets the discovery of which may be as profound in results upon civilization as the advent of steam or electricity, and they are secrets that will be yielded only to the trained eye and disciplined brain.

Poetry For Today

TODAY.

Only from day to day
The life of a wise man runs,
What matter if seasons far away
Have gloom or have double puns?

To climb the unreal path,
We stray from the roadway here;
We swim the rivers of wrath,
And tunnel the hills of fear.

Our feet on the torrent's brink,
Our eyes on the cloud afar,
We fear the things we think,
Instead of the things that are.

Like a tide our work should rise—
Each latter wave the best;
Today is a king in disguise,
Today is the special test.

Like a sawyer's work is life;
The present makes the law,
And the only field for strife
Is the inch before the saw.
—Exchange.

Weather Report

Washington, October 1.—Ohio, Indiana and lower Michigan—Fair Tuesday and probably Wednesday; light west winds.

West Virginia, Kentucky and Tennessee—Fair Tuesday and Wednesday; slowly rising temperature. Illinois—Fair, with slowly rising temperature Tuesday and Wednesday; light west winds.

Washington	48	Clear
Philadelphia	56	Cloudy

Weather Forecast.
Washington, Oct. 1.—Indications for tomorrow:
Ohio — Fair; light westerly winds.

Railroads Need Immense Sums

The present congested condition of freight traffic in this country is opening the eyes of financial interests to the gravity of railroad requirements generally. Leading business men throughout the country have expressed the opinion that if the United States is to have continued prosperity it must have the facilities necessary for handling it. Expansion of commercial and industrial activity during the last few months has brought out emphatically the inadequacy of transportation facilities. The railroads are not keeping pace. What is worse, it is the claim of the railroad heads that the transportations are rapidly slipping into a position financially where they will be unable to cope with growing requirements. President B. L. Winchell of the St. Louis and San Francisco Railroad estimates confidently that the railroads will need between \$8,000,000,000 and \$9,000,000,000 if they are to meet satisfactorily the demands of the country for additional transportation. This amount is from \$1,500,000,000 to \$2,000,000,000 less than the estimated money value of crops harvested this year. James J. Hill of the Great Northern Railroad Company, two years ago said that if the railroads are to be so improved as to meet the additional demands for transportation which would be made in the course of a few years, at least \$5,000,000,000 would be necessary. President Winchell has ventured to say that unless political agitation and legislative activity are less antagonistic to railroads, it will be found practically impossible to market the securities, which must be marketed if the money needed is to be secured. His statement is regarded as having been indirectly supported by statistics which have recently come from the official bureau at Washington. These statistics tell of a great increase in the gross earnings of the railroads, and yet an even greater decrease in net earnings than ever before.—Ohio State Journal.

Water in bluing is adulteration. Glass and water make liquid blue costly. Buy Red Cross Ball Blue, makes clothes whiter than snow.

VIEWS OF OTHERS

OUR SUICIDE RATE.

In 1911 for the first time, the suicide rate of small cities in the United States exceeded the rate for cities over 250,000 population. The rate in our small cities last year was 19.8 per 100,000, whereas the rate of suicide in 21 cities with 250,000 or over was 19.5 per 100,000 population. In 79 small cities out of 100 cities of all sizes, 1395 persons killed themselves during 1911.

In 100 American cities (79 under 250,000 and 21 over that population) the rate of suicide has grown steadily from 12.8 per 100,000 20 years ago to 20.3 in the five-year period ended with 1911. In 1910 the rate throughout our registration area was 16 per 100,000 so that there must have been 15,000 suicides in the United States last year.

These figures are taken from the tables of Dr. Hoffman, actuary for the Prudential Insurance Company, and are commented on in a recent issue of The Journal of the American Medical Association. Comparing these figures with Prussia's record, Dr. Hoffman shows that the Prussian suicide rate during 1910 was 21 per 100,000, about that of American cities. There were 32 male suicides as against 10 female suicides. The suicide mortality under 15 years is .68, raising to 16.61 between the fifteenth and nineteenth years, and to 26.84 between the ages of 20 and 24; during the latter period defective education, mental, moral and economic, seems responsible for the very high suicide frequency. But the highest rates are from 34.89 at 40 years to 58.71 at the seventy-ninth year—the period when those given to mental depression manifest decadence of mind and body.

For all ages, the principal cause of suicide in Prussia was unsoundness of mind (22.8 per cent of the male and 40.6 per cent of the female suicides); next came bodily disease (10 per cent male and 9.3 females). Nervous diseases accounted for 4.3 and 7.4 per cent respectively. Alcoholism was blamed for 10.1 per cent male and only 1.5 per cent female suicides. Sorrow and distress accounted for 12.2 male and 7.7 female suicides.—New York Tribune.

SAVED BY HIS WIFE.

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is of that kind. "She insisted on my using Dr. King's New Discovery," writes Mr. F. "For a dreadful cough, when I was so weak my friends all thought I had only a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quinsy, tonsillitis, hemorrhages. A trial will convince you. 50 cts. and \$1.00. Guaranteed by Blackmer & Tanquary.

MISSIONARY CIRCLE.

The Missionary Circle of the First Baptist church will meet with Mrs. A. W. West Wednesday afternoon at 2:30. All the ladies of the church are cordially invited. SEC.

SUNDAY SCHOOL RALLY.

The Christian Sunday school will hold a big rally next Sunday, October 6th.

Mr. Thad P. Carr, tuner, is now in Washington C. H. Leave orders at Cherry Hotel. 207 241

Stop Worrying About Your Hair

The noted English Hair Specialist, Mrs. Kate Seaton Mason, who for many years treated the hair of the Vanderbilt family, the Duchess of Marlborough, Mme. Melba, and many other titled and prominent people of London, Paris, New York and Newport, largely attributed her great success to what she called Mrs. Mason's Old English Shampoo Cream, which

Acts on the Hair Like Water on a Plant
Its antiseptic, germicidal and tonic properties are massaged into the roots of the hair during the process of shampooing. Does two things at once—washes the hair beautifully and stimulates the roots to healthy action—thus enabling it to stop falling hair, remove dandruff and irritation, and create hair and scalp health. Makes the hair look twice as thick as it really is. Mrs. Mason's Old English Shampoo Cream is 45c. a tube, enough for several shampoos. You ought to try it. We will return your money if you don't like it.

Blackmer & Tanquary.

Trained Eyes

Great Help to be Able to See Things

By F. R. O. CARPENTIER

THE world is littered with failures caused by eyes that could not see opportunity at the door. The combination of the untrained eye and the untrained mind is a handicap that ties the world to drudgery. It is the man whose eye sees beneath the surface of things who wins success.

Accurate observation is one of the rarest arts in the world. The untrained eye jumps to conclusions that have no reality in fact. The mind is blinded and deceived by eyes that lie. It is a common occurrence in court to have two honest witnesses differ diametrically upon essential points of their testimony. Try to describe from memory your most intimate friend so that a stranger could pick him out of a crowd and you will discover how little you have been using your eyes.

It is the man or woman who sees things overlooked by others, things to which others have been blind, who achieves success. It was because Watt could see an enormous power of tremendous potentiality in the steam which lifted the lid of the bubbling tea kettle that we have the steam engine of today, and yet steam had been making noisy tea kettles for thousands of years for unseeing eyes. And it is the same in all the great discoveries that have changed this world from savagery to civilization. It is the art of seeing with trained eyes.

The boy or girl who sets out deliberately to train eye and the registering mind to accurate observation has taken the first great step in real self-education. They are giving themselves the best equipment for the battle of life and preparing themselves to welcome opportunity.

It was a young man who had trained himself to see under the surface of things who made a fortune out of discarded tin cans in a western mining camp. The cans littered the streets and alleys where they had been thrown by the hungry, careless miners. They were kicked about and trodden upon by hundreds of money-mad men daily, but he one day noticed that one of the waste cans, partly submerged in the water that was pumped from the mines, collected a thin coat of copper. He saw that thousands of dollars' worth of copper in solution was going to waste in the water that poured from the mines. He saw that the tin cans caught this fleeing copper and precipitated it. In a few years he was one of the nation's mining magnates.

Train the eye to see things as they are, to see things which the most of us are overlooking as commonplace. Nature is still holding back many secrets the discovery of which may be as profound in results upon civilization as the advent of steam or electricity, and they are secrets that will be yielded only to the trained eye and disciplined brain.

Most for the Money

Here's where you get the most for your money. Read the following clubbing offers and take your choice.

No. 1.

Ohio Farmer to Jan. 1, 1914.
One copy of "Every Woman Her Own Dressmaker," a 32 page book, full of reliable information and profusely illustrated.

Daily Herald, sent anywhere for 3 months, or the Ohio State Register one year, all for . . . \$1.80

No. 2.

Ohio Farmer to January 1, 1914.

CONWELL'S MILLION DOLLAR LECTURE.

Lyceum Ticket Holders to Hear
"Acres of Diamonds."

At Grace Church, Oct. 16, 1912.

It is seldom that we have an opportunity to hear a million dollar lecture, but such an opportunity will be afforded our people when Dr. Russell H. Conwell of the Baptist Temple, Philadelphia, appears in our city. Several years ago it was stated that Dr. Conwell had earned one million dollars with his lecture, "Acres of Diamonds." With this money he had built up a great church from a straggling one, built and maintained a great hospital, built and maintained a college, the Temple College, of which he is founder and president, and helped scores of poor boys through this college. His is a fruitful life. He is one of America's really great men.

We quote from a letter written by the late Charles A. Dana to Harper Brothers: "I can say considerably that Dr. Conwell is one of America's greatest men. His personal history is as fascinating as it is exceptional. He took himself as a poor, back coun-

Musical club has been before the public, filling over 150 concert engagements a season for seven seasons, and the personnel has been changed but little. This means that their

try lad, created out of the crude material the orator, which often combines a Webster with Gough, and made himself a scholar of the first rank; created from nothing a powerful university of high rank in Philadelphia specially for the common people; created a great and influential church out of a small unknown parish; has assisted more men in securing an education than any other American; has created a hospital of the first order and extent; has fed the poor and housed large numbers of orphans; has written many books and has addressed more people than any living man."

ORPHEANS THE BEST IN THE LYCEUM.

Have Filled 150 Engagements Annually for Seven Years.

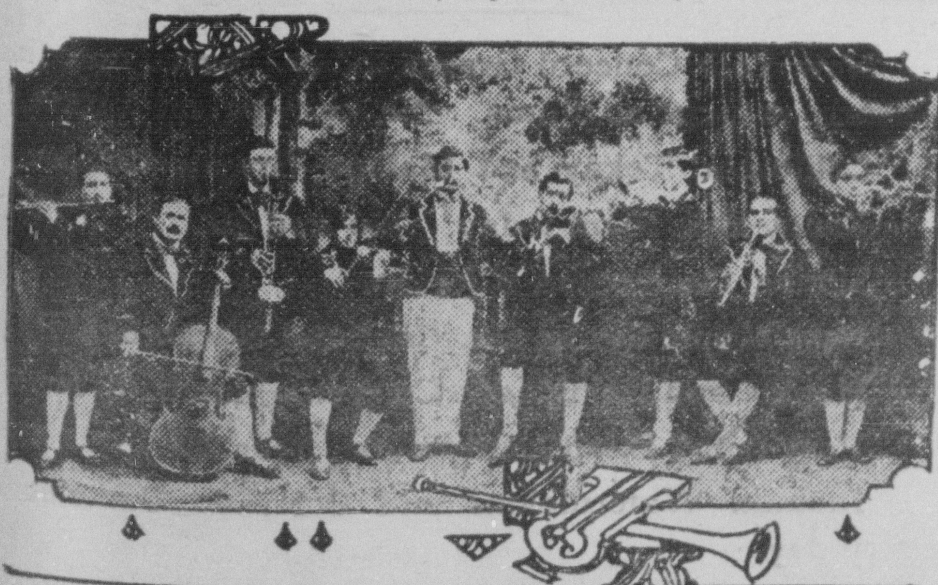

At Grace Church, Nov. 11, 1912.

The ticket holders to our Lyceum course will be pleased to hear one of the best male quartets in the Lyceum—some say it is the best. The Orphean

At Grace Church, Nov. 25, 1912.

Local Lyceum Is Extremely Fortunate In Being Able to Present the Neapolitan Orchestra

WE ARE unusually fortunate in being able to offer to the music lovers of this city this splendid New York success. The Neapolitans—all sons and daughters of sunny Italy, the land of music—have been a big musical success in this country, as well as in their native land. It is a complete orchestra under the direction of Signor Arturo Lambertini, one of the best directors of Italy. A special feature will be the serenade music peculiar to the people of Naples—the entire company singing and playing. The principal vocal features, however, will be rendered by Signor Mario, tenor, and Mlle. Trevette, soprano, formerly of the Manhattan

opera house, New York city, and late of the grand opera companies of Italy. These two singers will appear in solos and duets. Another splendid soloist is Signor Taffo, violin virtuoso, who was a great success in Europe with the Adriatic Concert company of Italy.

It is seldom that our people have an opportunity to hear so great a musical attraction that is a metropolitan success, and it is only through the Lyceum we are enabled to present such high-class talent. No one will wish to miss this great concert, so the date should be noted with care.

LELAND POWERS KNOWN FROM COAST TO COAST.

Greatest Interpreter of English Literature in Lyceum Work.

At Grace Church, December 10, 1912.

The name of Leland Powers is known from coast to coast. For 20 years he has stood alone as the greatest interpreter of literature in America—some maintain in the English-speaking world. One can get some conception of the man by reading what he thinks of his own art. He says:

"Of all the arts, the most joy-giving, I think, is my own art. A great drama is a masterpiece of art, made up of master-moments of life so chosen, grasped and wielded by a master's hand, that they reveal the omnipotence of love and good-will and the impotence of hate. It is the glory of my art to translate, through living

LELAND POWERS.

voice and movement, such masterpieces from the printed page back to breathing life."

And this little appreciation from the noted Lyceum critic, Paul M. Pearson, will give some idea of how he is regarded by those competent to judge: "The art of Leland Powers is that of a master. He has many imitators, but I have never heard his equal. He has long been recognized as a standard by which all similar work is judged, and the highest compliment that can be paid any other artist is to place him in the same class with Leland Powers. The splendid vigor of his work betokens the man of clean mind, sincerity of purpose and the keenest insight into character. These qualities make his art enduring. It does not so much matter that he is master of the technique of his work; that alone could not give him the place he holds. His knowledge of life is abundant, his humor true humor, and his pathos true pathos. Caricature is never indulged, and melodramatic effects in the story are never permitted. He is not only capable, but sincere. He seems utterly unconscious of his medium, so that the results seem as natural as the many types one meets on a walk up Chestnut street or Broadway."

RALPH PARLETTE IS COMING SOON.

He Represents the Lyceum and Chautauqua Movement.

At Grace Church, Jan. 3, 1913.

It is of especial interest that we are to hear in our city this season the man who, more than any other, represents the great Lyceum and Chautauqua movement, for Ralph Parlette, the editor of the Lyceum Magazine, is to speak to us. He has lectured for sixteen years and has spoken to over a million people in every state in the Union. He is a national character and a really great man.

The Lyceum bureau that arranges his tours asked him for a brief account of his career, and we publish a part of his answer because it is typical of the man and his style:

"I stumbled around a good many years before the heavenly vision came. I had so much bad luck, for I was born under an unlucky star. I put in so many years growling because the world didn't use me right. Now I wonder why the world uses me better than I deserve. Now I see it was all one great course in the University of Hard Knocks."

"My father was a Methodist preacher, one of the old-time 'circus riders,' who would come in from his 50-mile horseback circuit with his clothing frozen stiff from swimming the river in winter, with his salary in his saddle-bags. We moved every little while. Now most any place in Ohio I go to lecture is 'my old home town.' I was born Aug. 30, 1870, near New Dover, O. When nine years old

RALPH PARLETTE.

my mother went to heaven from a cabin in the Black Swamp of Ohio. I rolled up my sleeves and began to earn my bread, because that was the only way to go on eating. I worked on a farm, worked at any old job, learned the printer's trade at 15, was editor at 16, also school teacher because the lowest bidder, and high school graduate at 17.

"I entered the Ohio Northern university in 1888 and worked and blew (in the band) my way through college, graduating in 1891. I bought the printing shop I worked in, and the firm of Parlette & Snyder at Ada, O., has since developed into a modern printing plant."

"I fell into the editorial chair of the Lyceumite and Talent in 1909. I have since been able to edit it in a car seat and fill 200 lecture dates a year. This has been a great surprise to the world and a disappointment to the undertaker. Doing two men's work, I have been able to grow twice as strong and avoid vacations. I edit all day and rest by lecturing at night. I lecture at night and rest by editing in the daytime. I haven't time to break down, therefore I stay well, and each day get better. The three main diseases of America are vacations, Coca Cola and the Saturday Evening Post."

MEDIE O. HAMILTON A WELL-KNOWN READER.

Talented Lady Has Entertained Audiences Throughout the Country.

At Grace Church, Jan. 30, 1913.

This number is perhaps equal to any on the course. Miss Hamilton is one of the best known readers in America.

MARGARET STAHL IS COMING SOON.

The Greatest Woman Reader on the Lyceum Platform.

At Grace Church, March 4, 1913.

To be known as the greatest woman reader in the Lyceum is a great distinction and to have won this distinction in eight years is a wonderful achievement. Critics declare Miss Stahl will hold the place she has won so long as she remains on the platform, because of her untiring work. She spends months slaving over every program. This does not mean that Miss Stahl is without natural ability—she has it in abundance. Furthermore, she has a wonderfully strong personality, a beautiful voice that would charm anybody, and good looks—some say she is the most handsome woman in Lyceum work. She knows literature—real literature—and exercises a nice discrimination in selecting her material. She fills more return engagements than any other woman reader in the Lyceum. Her popularity may be explained by this

MARGARET STAHL.

extract from a letter written by Dr. Albert Edward Wigram, the noted lecturer who is a critic:

"Not long ago I wrote to a friend saying that wherever I had had the pleasure and honor of following Miss Margaret Stahl, the great woman reader, that it seemed to me that Miss Stahl was rapidly gaining a hold upon the public like that of Maud Adams, a hold that goes out entirely beyond her acting and her art and somehow grips the heart and imagination by the sheer wonder of the woman. There are few such women in the world. Tell any man 50 years old that you once saw Mary Anderson, and immediately you become an object of intense interest. The name and personality of Mary Anderson remains and still holds the public imagination 30 years after she left the footlights. And it struck me there was something of this in Margaret Stahl; that it was partly this that made John R. Clarke, the English lecturer, who has heard and studied all the readers and actresses of our time, say to me that Miss Stahl, in his judgment, is the greatest reader of the English tongue since Sarah Siddons. Her rich and teeming personality fascinates her hearers and they are gripped by the charm of a deep, true and elemental womanhood that is bigger than art and better than all acting."

HIGHEST SALARIED CHURCH QUARTET.

This great Organization to Delight Lyceum Ticket Holders.

At Grace Church, Feb. 12, 1913.

That the famous quartet from the Marble Collegiate Church of New York City, said to be the highest salaried church quartet in America, is to appear in our city is a musical event of importance. The artists comprising this organization are not only soloists of the first rank, well known in concert and oratorio fields, but have been associated for many years as a quartet and have attained a degree of perfection in unaccompanied part singing impossible to achieve except by constant practice and effort.

The soprano of this famous quartet is none other than Edith Chapman Gould, who appeared as soloist several times at the Cincinnati and Worcester Musical Festivals. For one

THE COLLEGIATE ARTISTS.

John Young, Tenor; Edith Chapman Gould, Soprano; Eleanor Stanley, Pianist; LaRue R. Boals, Bass; Corinne Welsh, Contralto.

season she sang with the Mendelssohn choir of Toronto and with the New York Oratorio society.

John Young, who has appeared with such organizations as the Russian Symphony orchestra, New York Oratorio society, Choral Society of Philadelphia and many others, is the ex-

cellent tenor; Corinne Welsh, who toured during the spring of 1912 as soloist with Walter Damrosch's New York Symphony orchestra, is the contralto; La Rue R. Boals, who has sung repeatedly with the Theodore Thomas Orchestra, is the bass, and Eleanor Stanley, a pupil of Moszkowski, is the pianist and accompanist.

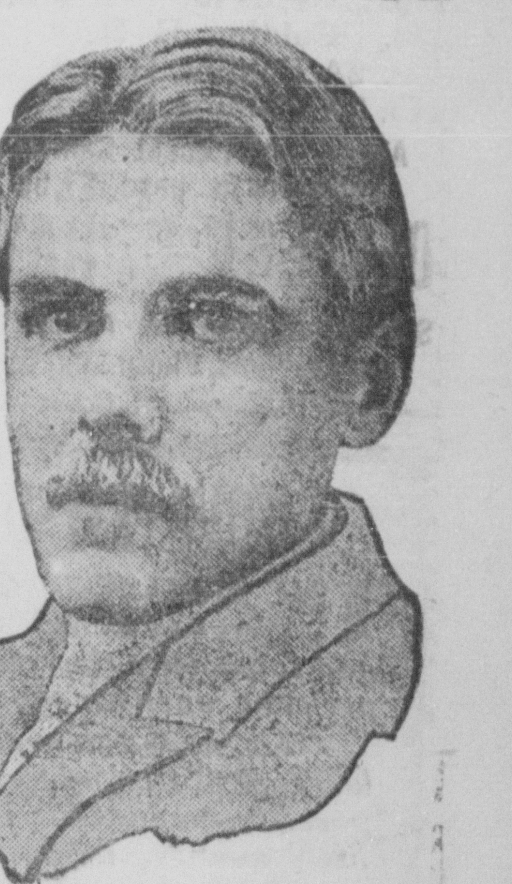

That this great organization will give one of the most delightful programs we have ever had goes without saying. LYCEUM ANNOUNCES COMING OF DR. HILLIS.

Successor to Beecher, Devotes Part of His Time to Lecturing at Grace Church, April 8, 1913.

Many of the great preachers of America have appeared on the Lyceum platform, including Talmadge and Beecher, and now the successor of Beecher in the Plymouth church, Dr. Newell Dwight Hillis, is devoting a brief period each year to the platform. It is with a great deal of pleasure that we announce that he will appear here. He is so well known that little need be said about him. Collier's, that brilliant weekly magazine, has been publishing a series of articles on "Great Pulpit Orators of America," and in a recent issue a three-page article appears about Dr. Hillis, whom it characterizes as "The Preacher Who is Conspiring to Make Brooklyn Beautiful," and from which we quote:

"A sapient soul is the Rev. Newell Dwight Hillis, and wise in the wisdom of his generation; canny, quicker than chain lightning, human as Ty Cobb, and as a preacher his batting average is as high. He maintains the traditions of American pulpit oratory in the very spot where it reached its flower and for forty years loosed its fragrance on the highways of American national life; for Dr. Hillis preaches in the pulpit of Henry Ward Beecher in Brooklyn, with the historic memories of that embattled and embattling spirit around him. On the

DR. NEWELL DWIGHT HILLIS.

right of his pulpit as he speaks is the F. William Herring portrait of Beecher. The rays of an incandescent light fall cunningly upon it, making the picture seem alive and just a trifle spiritualized. It is the aura gleam of the soul of Beecher, looking on over the shoulder of Hillis into the very faces of some of those men and women who had heard the Thunderer for years. There was a power in the passion of Beecher that is greater than the power in the passion of Hillis. Beecher planted blows in the solar plexus of the soul. Hillis will not do that. Rather will be put a steam-hot towel on the face of conscience and so open the pores of the man's moral nature that he will himself punch his plexus. Beecher was brave. Hillis is not a coward. Beecher fought human slavery when the conservative classes all about him counseled moderation. Hillis today is distinctly progressive. His church is full of conservatives. He loves these conservatives, but not their conservatism. He is for the initiative and the referendum, for the recall, for direct primaries and direct election of United States senators. Not a prominent man in his church, probably, but is against all, or most all, of these principles. Hillis is for Roosevelt, and he takes no pains to hide his views upon the subject. The people of Plymouth loved and revered Beecher, and they love and reverence Hillis, seeing nothing odious in comparisons, believing that they differ merely as one star differeth from another star in glory."

Successor to Beecher, Devotes Part of His Time to Lecturing at Grace Church, April 8, 1913.

Many of the great preachers of America have appeared on the Lyceum platform, including Talmadge and Beecher, and now the successor of Beecher in the Plymouth church, Dr. Newell Dwight Hillis, is devoting a brief period each year to the platform. It is with a great deal of pleasure that we announce that he will appear here. He is so well known that little need be said about him. Collier's, that brilliant weekly magazine, has been publishing a series of articles on "Great Pulpit Orators of America," and in a recent issue a three-page article appears about Dr. Hillis, whom it characterizes as "The Preacher Who is Conspiring to Make Brooklyn Beautiful," and from which we quote:

"A sapient soul is the Rev. Newell Dwight Hillis, and wise in the wisdom of his generation; canny, quicker than chain lightning, human as Ty Cobb, and as a preacher his batting average is as high. He maintains the traditions of American pulpit oratory in the very spot where it reached its flower and for forty years loomed its fragrance on the highways of American national life; for Dr. Hillis preaches in the pulpit of Henry Ward Beecher in Brooklyn, with the historic memories of that embattled and embattling spirit around him. On the

DR. NEWELL DWIGHT HILLIS.

right of his pulpit as he speaks is the F. William Herring portrait of Beecher. The rays of an incandescent light fall cunningly upon it, making the picture seem alive and just a trifle spiritualized. It is the aura gleam of the soul of Beecher, looking on over the shoulder of Hillis into the very faces of some of those men and women who had heard the Thunderer for years. There was a power in the passion of Beecher that is greater than the power in the passion of Hillis. Beecher planted blows in the solar plexus of the soul. Hillis will not do that. Rather will be put a steam-hot towel on the face of conscience and so open the pores of the man's moral nature that he will himself punch his plexus. Beecher was brave. Hillis is not a coward. Beecher fought human slavery when the conservative classes all about him counseled moderation. Hillis today is distinctly progressive. His church is full of conservatives. He loves these conservatives, but not their conservatism. He is for the initiative and the referendum, for the recall, for direct primaries and direct election of United States senators. Not a prominent man in his church, probably, but is against all, or most all, of these principles. Hillis is for Roosevelt, and he takes no pains to hide his views upon the subject. The people of Plymouth loved and revered Beecher, and they love and revere Hillis, seeing nothing odious in comparisons, believing that they differ merely as one star differeth from another star in glory."

MINISTER GIVES VIEWS ON MARRIAGE QUESTION

Believes Marriage Ceremony Performed Without Regard to the Proper Surroundings Should Not Be Permitted—Takes a Rap at Marriage By Justice of Peace.

During a farewell sermon delivered by Rev. A. L. Vandegriff of the West Holland M. E. circuit, Sunday night, he stated among other things that if he is not returned to the West Holland charge for another year, that it was his desire that he not be called back while a minister of some other charge, to preach a funeral sermon, perform a marriage ceremony, or render other duties which could be performed by the minister who succeeds him, holding that it was an injustice toward a new minister to have his predecessor called back to officiate in a ministerial capacity.

Rev. Vandegriff is a firm believer in making marriage vows as holy and impressive as possible, with great care as to the place the wedding occurs. Speaking at some length on the question, Rev. Vandegriff said:

"There should be only three places where marriages are performed in order to forcibly impress the sacredness which should characterize every marriage ceremony. The first place is the bride's home; the second is the parsonage parlor and the third the church.

"There should be a halt called to marriages performed by Justices of the Peace and other officials, where the ceremony takes place in a dingy office, where the curious public may witness the event and where due solemnity is lacking, or in some other place where the lack of suitable surroundings is disregarded."

"Take away the proper surroundings from a marriage ceremony and

HAVE YOU A BABY?

Every woman knows how imperatively necessary it is that baby's things should be absolutely and perfectly clean. She knows the trouble she has with common yellow soaps that leave the dirt in and often make the little garments harsh and irritating to baby's skin. Easy Task soap—you can get it of your grocer—is the quickest and safest cleanser made; it is antiseptic—and it reduces the work of washing by half.

The funeral services of Dr. Thomas C. Tipton, who died at his home in Williamsport Saturday night, were held Tuesday afternoon at that place and a large crowd attended the funeral of the man who had been among them for so long.

Dr. Tipton was the father of Editor Tipton, of the Williamsport News, and was in his 86th year. He possessed a great many friends in this county who will be deeply grieved to learn of his death.

Deceased was born in Harrisburg township, Franklin county, Ohio, September 10th, 1827; he was a graduate of Ohio Wesleyan and Starling Medical college; in 1852 he began the practice of medicine in Darbyville, a few years thereafter he removed to Williamsport where he had since resided. In 1862 he entered the army as assistant surgeon of the 113th regiment, remained in that capacity until the close of the war.

He was married to Marinda, a daughter of Horace and Jeanette (Wright) Loomis, and a native of Central College, Franklin county, Ohio, where she was born March 7, 1833. Three children were born to this worthy couple; Lizzie, born December, 1867; Alice, wife of Fred Weltz, of Wilmington, O., and Thomas.

MARION GETS HIS DATES BADLY MIXED

A most peculiar case occupied the attention of Mayor Smith this week when Abe Marion, a resident of John street, appeared and filed suit against Manfred Judy, charging him with an assault committed last May, when in reality the trouble occurred one year ago last May.

Marion claimed that Judy had come past his house one night while his daughter was playing the piano, and made some indecent remark to the girl, and that he (Marion) resented the remark and that a quarrel ensued which resulted in Judy hurling a brick-bat that struck him on the head and caused a very bad wound.

It seems that Marion was not cer-

tain who the party was, but succeeded in capturing and retaining his assailant's cap. The cap was kept by Marion until Sunday, when Judy is alleged to have called and demanded it, thus revealing his identity as the man's assailant.

Judy, when arraigned before Mayor Smith, admitted the trouble, but claims that the trouble occurred in 1911 instead of last May, as claimed by Marion.

That Judy is correct in his claims is proven by the fact that the conflict occurred under the administration of Mayor Allen.

Judy waived examination to the charges preferred by Marion and was bound over to the grand jury in the sum of \$200, which he furnished.

"Brush" Kept 'Em From Winning Game

The following write-up of the football game, taken from the Xenia Gazette, has created a great deal of amusement among local citizens who witnessed the Saturday game when Xenia was given such a thorough trimming in such a clean manner, and indicates how humiliated the Xenia boys were after the local "swampites" had trounced them:

"In a hard fought game Saturday, Xenia High school's football representatives went down in defeat before Washington C. H. High school, to the tune of 13 to 0. The game was played on a field that was a cross between a swamp and a brush heap, and it was measured wrong in the bargain. This, together with some poor refereeing on the part of Washington, badly handicapped the local bunch. The Washington boys, thoroughly acquainted with their native land, easily eluded the various brush heaps, which continually got in Xenia's way.

"Xenia started off like a whirlwind, receiving the kickoff and advanced the balls to within a few feet from their goal. Here in spite of all they could do, they lost the ball to Washington, who in the first two quarters sent over two touchdowns, Russell Mobley, a former Xenia boy, making their first one.

"In the second half neither side scored, although time after time, by thrilling forward passes, Xenia came within a few feet from their goal only to lose the ball again. It was enough to give a Xenia fan heart failure.

"With vengeance in their hearts the Xenia warriors shook the dust of the town from off their feet, vowing they would 'take it out of 'em' when Washington plays the return game in Xenia, November 2nd.

"A feature of the game was the brilliant playing of 'Goat' Evers, Xenia's lengthy right end.

"A number of Xenia fans accompanied the team on this trip.

"The next game will be played with Springfield High school here in Xenia."

FORTUNES IN FACES.

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it. Impure blood is back of them all, and shows the need of Dr. King's New Life Pills. They promote health and beauty. Try them. 25 cents at Blackmer & Tanquary.

The Armory Prospects

Col. B. L. Barger, of the Ohio State Armory Board, states that unusually heavy work has kept the board busy ever since council extended an invitation to meet with them in an endeavor to select an armory site in this city and that it has been impossible to comply with the invitation.

The Armory Board is very anxious so Col. Barger says, to come here and close up the matter at the earliest possible moment.

It is the expectation now of the members of the State Board to visit the city in a short time and go over the conditions and view proposed sites with the committee of Council, all to the end of erecting here a handsome \$20,000 armory building. If a suitable site can be agreed upon and arranged for.

A LOG ON THE TRACK.

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality, loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing the indigestion. Michael Hessheimer of London, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents at Blackmer & Tanquary.

SILVER MEDAL CONTEST.

A silver medal contest will be held at the Sugar Creek Baptist church, three miles north of Washington on the Jamestown pike, next Sunday, October 6th, at 2 o'clock.

The following piano students from the Stinson Conservatory will compete for the medal:

Misses Virginia Sites, Mary Baughn, Charlotte Baker, Helen Hamm, Helen McKee and Gladys Barger. Misses Edith Moore, of Staunton; Lois Hankins, of Sedalia, and Marguerite Wilson will deliver readings.

The Ladies' Aid Society of Grace M. E. church, will meet Thursday afternoon at 2 p. m. in Epworth parlors. We cordially invite every lady member of this church to attend this important meeting.

March 4.—Margaret Stahl.
April 8.—Newell Dwight Hillis.

Badly Injured By Bale of Straw

Early Tuesday morning while Mr. Chas. Baker, of North North street was engaged in transferring some baled straw from a wagon to the hay-loft, and using a hay fork to lift the bales, a bale became unfastened from the fork and fell upon Mr. Baker, knocking him to the ground and seriously injuring him.

In alighting Mr. Baker struck upon his head and shoulders. He was picked up and taken to the house and a physician summoned. An examination disclosed no broken bones, or internal injuries, but the bruises and injured muscles will confine him to his bed for some little time. His escape from fatal injuries was remarkable.

Five-cent Eggs A Winter Bargain

Eggs will be cheap at 5 cents apiece. They cannot be bought at this price when midwinter comes.

Thus speaks Robert Essex, incubator manufacturer of Buffalo, who thinks he is in close touch with the egg market for the coming winter.

He made the statement in a letter to Professor F. S. Jacoby, head of the poultry department at Ohio State University, who predicted 5-cent eggs in an article published about two weeks ago. He has received many letters commenting on his statement from egg dealers and poultry raisers in all parts of the country. Several contradict his prediction.

Mr. Essex, however says he knows from the present small stock of eggs in the cold storage houses of New York that prices will go much higher than 60 cents a dozen.

Fresh lot of Partridge Hams came in today.

IN SOCIETY

A beautiful home wedding was that of Miss Mabel Shoults and Mr. Orville A. Wise of Carthage, Missouri, which was solemnized last evening at eight-thirty o'clock at the home of the bride's parents, Mr. and Mrs. Abe Shoults on North Fourteenth street, amid a large number of intimate friends and relatives. The house was beautiful with trimmings of white roses used in abundance, combined with quantities of asparagus fern, carrying out the green and white color effect of the wedding. The front parlors were banked with large ferns and palms, while vases and pretty wall brackets were filled with white roses. Over the lace window draperies were gracefully placed long sprays of asparagus fern caught in the center with huge bows of white maline. As the strains of Lohengrin's wedding march, played by the Braly orchestra, were heard, the bride and groom entered from the south parlor through an aisle formed by green and white satin ribbon to the large doorway that formed a beautiful archway, trimmed with ferns, smilax and white roses. In the center of the arch was hung a huge wedding bell made of white roses and bowed with white satin ribbon. Dr. O. E. Goddard, of St. Paul's M. E. church performed the impressive ring ceremony. Little Virginia Pillars, niece of the bride, served as ring bearer, carrying the ring in a huge white rose; little Misses Dorothy Hare and Ruth Swanson, dressed in dainty white, served as ribbon bearers. The bride, who is of the blonde type, was most charming in her gown of white crepe meteor draped over ivory satin made empire style with sweeping train and trimmed with dutch lace and pearl ornaments; she wore a long veil of tulle that reached to the hem of her gown and was caught to her hair with valley lilies. She carried an armful of long stemmed bride's roses tied with maline; little Bunnie Bonhannan held the bouquet for the bride during the services. After the ceremony an informal reception was held and a delightful two-course supper was served in the dining room, which was decorated in the same lovely green and white effect that characterized the wedding. The table was laid with exquisite cluny lace and centered with an immense wedding cake iced in white, bearing a pretty wreath of green leaves. This was placed in a bed of green. The chandelier above was draped with fern and smilax and a pretty green basket filled with ferns and white roses hung gracefully over the cake. At four corners of the table were tall silver candlesticks burning candles of white hidden beneath green shades. In cutting the cake, Miss

Pearl Moore cut the thimble, Miss Wilma Smith the ring, Mr. Ray Swanson the dime and Miss Maud Swanson the toothpick. As the bride left the supper room she threw her bouquet and Mr. John West, Jr. caught it, indicating he will be the next to be married. Mr. and Mrs. Wise left on the late train for St. Louis, Missouri, to spend a two weeks honeymoon before going to Jefferson City where they will make their home. The bride's going-away gown was a handsome dark blue tailored suit with hat, shoes and gloves to match. Mr. and Mrs. Wise were recipients of many handsome and beautiful wedding gifts. The wedding was a pretty home affair, attended by seventy-five guests.—Muskogee Daily Phoenix, Thursday.

The Daughters of the American Revolution opened the fall season and celebrated their 14th birthday anniversary with a beautiful "Birth-day party" at the home of Mrs. Calvin Holmes Monday afternoon. The hostesses entertaining were Mrs. Fuller Hess, Mrs. George Haynes, Mrs. Maria Hegler, Mrs. W. A. Harlow, Mrs. Maude Harlow Coffman, Miss Marie Hegler, Mrs. Eva W. Baker, Mrs. Hunsicker, of Williamsport.

The attractions of the anniversary the ingenuity of the hostesses in offering original entertainment and the perfect day contributed to make the opening meeting an auspicious forerunner of the year to come.

This year's program has been delightfully planned, leaving it to the hostesses to vie with each other in devising entertainment.

There was a very large attendance close to sixty daughters and visitors, and Mrs. Holmes' spacious rooms accommodated them admirably.

The incoming regent, Miss Florence Ogle, gave cordial greeting for the new year.

There were several new members received, Mrs. Wm. Myers, daughter, Miss Alice, Mrs. H. G. Simons, Greenfield, Mrs. Thos. De Weese, of this city. The local chapter will be represented at the State Congress at Lima by the Regent, Miss Ogle; vice regent, Mrs. Mary Stinson Stutson and a number of delegates.

A unique guessing contest, "In Grandmother's Kitchen" occupied part of the afternoon, Mrs. E. F. Todhunter winning the prize, a large bunch of carnations.

A delicious repast was served. Fourteen candles blazed on an exceedingly pretty tea table, having for its centerpiece an immense basket of pink carnations and fern.

Out-of-town guests not belonging to the chapter were Mrs. Jack Myers, Mrs. Ben Radcliffe, of Williamsport; Miss Anna Louise Ustick, Cincinnati.

Misses Fannie and Charlotte Dahl are spending the day in Columbus.

Mrs. Henry Mark, Mrs. M. J. Van Pelt, Mrs. M. F. Stuckey visited in Jamestown during the past week.

Mr. Clarence Baer has returned from a few days' stay with his wife and little son at Chippewa Lake.

Miss Bess Kerr returned last night from Chicago where she was called last week by the death of an aunt.

Miss Florence McMartin, of San Francisco, Cal., is the guest of her cousin, Mr. George Hitchcock and family.

Mrs. Philip Rothrock, of New Orleans, La., is the guest of her husband's parents, Mr. and Mrs. Philip Rothrock.

Mr. and Mrs. Herbert Chapman and little daughter, Georgia Prue, have returned from a week's visit with Mr. and Mrs. George Davidson in Columbus.

Mrs. Martha E. Royer and son, A. S. Royer, have returned to Dayton after a visit with Mrs. Sarah Leas on the Greenfield pike, and Mr. and Mrs. Jess Wilson, of Millwood.

Mr. Roy Blackmore, who has been spending the summer in Bloomsburg, accompanied by his guest, Mr. Aspen, left yesterday for New York, going by way of Washington, D. C.

Mr. and Mrs. R. C. Evick and daughter, Ruth Carleton, of Columbus, are visiting Mrs. Evick's mother, Mrs. M. F. Stuckey and sisters, Mrs. Fred Schmid and Mrs. Glenn Rodgers.

Mr. and Mrs. W. B. Landsinger are moving into the J. P. Snyder residence property, recently purchased on Hinde street. Mr. and Mrs. Snyder will go to their farm at Mechanicsburg for the present.

Mr. and Mrs. N. S. Barnett left this morning for Shawnee, Okla., where they will visit Mrs. Mattie Barnett and Mr. and Mrs. Willard Barnett. Mr. and Mrs. Ed Kinnear came down from Columbus to stay with Mrs. Kinnear's mother, Mrs. Ellen Cissna during the Barnetts' absence.

Mrs. M. A. Thompson is visiting her sister, Mrs. Malinda Adair, at Sabina.

Mrs. A. E. Baum and daughter Frances, have returned from a five weeks' visit in Illinois.

Dr. V. P. Smith and family are moving from the corner of Main and Temple into the handsome new house just completed by Mr. A. T. Vincent, on the corner of Main and Paint.

Mr. and Mrs. Milton James came over from Austin Sunday morning and with Mr. and Mrs. Will Hettelheimer and Mrs. Hattie Johnson were the guests of Mr. and Mrs. Albert Slagle of Jasper.

BACKSTAMPING LETTERS TEMPORARILY ABOLISHED

Useless Practice Observed By Postal Department for Years Discontinued in Washington Office for Four Months During Heavy Mail and May Be Permanently Abolished.

Postmaster Culhan has received orders from the Postoffice department to discontinue the backstamping of all mail, except special delivery and registered matter, for the period of four months, commencing October 1, 1912, and ending January 31, 1913.

The volume of mail during this period is much greater than during the balance of the year and is greatly increased by campaign matter and the usual holiday rush. A great deal of time is consumed in the backstamping of all of the first class mail and this time can be used to much

better advantage in the distribution to boxes and delivery of incoming mail.

In all of the large offices of the first and second class, backstamping has been discontinued permanently and the change has resulted in speedier handling of all mail without any inconvenience to the public.

It is thought that within a short time backstamping which is placing the postoffice stamp on the reverse side of the envelope, showing what time it was received, will be entirely discontinued, and the present stay of back stamping may be made permanent.

The back-stamp is probably of no benefit upon more than one letter out of 10,000.

The back-stamp does insure speedy delivery of mail, as any delay in receipt of a letter would be more quickly noticed by the recipient. With the present facilities for handling mail however, the back stamp is practically useless, as demonstrated by the discontinuance of the practice in all of the larger offices.

Diphtheria In Paint Township

A number of cases of diphtheria have developed in Paint township on the Lewis pike, and a further spread of the disease is feared.

Two small children of Theodore Racer are ill with the dreaded disease, and the family of M. B. Skinner has just been removed from quarantine. Efforts are being made to stamp out the disease, and so far it has not been necessary to close any of the schools.

An Epidemic Of Bad Colds

An epidemic of bad colds has been causing a great deal of suffering the past few days, hundreds of people being afflicted, and whether it is contagious or merely due to the unseasonable cold weather, is not known.

No really serious cases have been reported, but the disagreeable affliction has caused no end of suffering, nevertheless.

PERSONAL PARAGRAPHS

Mr. William Fogle joined the campers at Buzzard's Roost today.

Miss Opal Swope was called to Troy yesterday afternoon by the illness of an aunt.

Mrs. Frank Post, of Middletown, is the guest of her parents, Mr. and Mrs. John E. Green.

Mrs. M. L. Kuhl and Miss Sadie Wolfe, of near Greenfield, were shopping in this city Tuesday.

Mr. and Mrs. W. L. Johnson arrived from Brown Co. today to visit their daughter, Mrs. G. W. Inskeep.

Mrs. Jos. P. Bailey went to Hillsboro today to visit her aunt, Mrs. Charles Haynes, and to attend a large M. E. missionary meeting.

Rev. T. W. Locke left today for Columbus to attend the Ohio Conference.

Cashier Estel Smith, of the Mill-edgeville bank, was a business visitor to Columbus yesterday.

Mr. G. W. Inskeep left this morning for a short stay with his son, Mr. Harold Inskeep, at his farm near Urbana.

Mrs. Clarence Frazer returned to Xenia yesterday after a week's visit with her parents, Mr. and Mrs. J. P. Harsha. Mr. Frazer came over to spend Sunday.

Mrs. W. W. Davies went to Delaware this morning and goes on to Lima to represent Fayette county at the State W. C. T. U. convention. On Friday Mrs. Davies joins Prof. Davies to attend the Ohio Conference in Columbus over Sunday. Prof. and Mrs. Davies will be the guests of Rev. and Mrs. W. H. Lewis in Columbus.

A Prominent Politician

Says: "We Should Have More Confidence in Each Other."

But he forgets that confidence is a plant of slow growth.

He forgets that to ask for it is to lose it.

He forgets that only those who earn it ever gain it.

The men of this city have confidence in this store, not because we askt them to—oh, no.

But because season after season, year after year suit after suit, and overcoat after overcoat, we have demonstrated, proved, shown that nowhere are garments styled and priced as we style and price ours.

And so, Mr. Politician, don't whine about a lack of confidence. Go out and earn it, deserve it; be worthy of it—and it'll come your way all right, all right.

Big Contributions Brought to Light

Special to Herald.
Washington, October 1.—E. J. Hooker, treasurer of the Progressive party, told Senator Clapp on investigating committee, that Charlie R. Crane, of Chicago, contributed \$70,000 each to LaFollette and Wilson campaigns.

William Flinn admitted giving \$102,000 to the Roosevelt fund in Pennsylvania.

New Baggage Man At Union Station

Harry Brehm, who for nearly three years has held the position of baggage master at the Union Station, has resigned his position, and O. C. Kibler, of Greenfield, has been appointed to succeed him, commencing his work Tuesday.

Mr. Kibler is a brother to Mr. R. R. Kibler, and will probably move his family here soon.

"Sojers" Placed Behind the Bars

Failure to attend drill regularly after repeated warnings was the signal for a detachment of local Guards to be sent out in search of the offenders Monday night, and after a visit to practically all places of business which were open, two of the men who had been playing hooky were located and locked up in the county jail to await the pleasure of the officials.

Under the law when a member fails to attend drill, unless he can produce an excuse which is acceptable, he can be "jugged", as was the case Monday night.

ANOTHER FREIGHT WRECK TIES UP THE D. T. & I.

Six Cars Smashed to Kindling Wood at Greenfield Early This Morning, Entailing a Loss of Several Thousand of Dollars. Traffic Will Be Resumed Tonight.

Bad track or bad order cars caused a big pile-up on the D. T. & I. railroad between the Greenfield depot and the overhead B. & O. bridge at Thrifton at six o'clock Tuesday morning, and a ten or twelve hour tie up of all traffic was the result.

The second 54 freight, in charge of Conductor O'Day formerly from this city, was coming down grade at Thrifton when a set of trucks near the middle of the train left the rails, and after cutting ties for some little distance caused a smash-up which reduced six cars to a pile of twisted steel and splintered timbers, while the contents of the six cars was scattered throughout the wreckage.

It is supposed that a broken flange or a defect in the track caused the wreck which will cost the road several thousand dollars. As the track was torn up for a considerable distance it was necessary to allow all freight traffic to congest, while the morning north-bound train due here at 7:53 was delayed at the wreck and awaited the 9:50 south-bound train, which met No. 2, made a transfer and returned as No. 2 while No. 2 returned south as No. 5.

The cars were piled up on the right-of-way eighteen feet in depth making one of the worst wrecks in recent years to handle.

Supt. Warner and a wreck train from Springfield passed through this city at 10:20 bound for the scene, and the work of clearing up the wreckage was commenced at once.

All cars have been pressed into service on the D. T. & I. railroad and it is hinted that a great many are being used which should be in the repair shop undergoing repairs to be placed in something like condition. Many freight wrecks have been predicted this fall because of the same state of affairs on other roads as well as the D. T. & I.

30 STRIKERS CLUBBED INTO INSENSIBILITY

Special to Herald.

Lawrence, Mass., October 1.—Two hundred strikers, who attempted to storm the Patterson mill this morning when refused permission to return to work, were driven into a blind alley

by the police and thirty of the rioters were clubbed into insensibility.

The police lines have been strengthened and further serious trouble is expected at any moment.

BOY HERO SACRIFICES LEG TO SAVE GIRL'S LIFE

Chicago, Sept. 30.—One hundred and fifty square inches of skin was removed from the crippled leg of Willie Rugh, a Gary (Ind.) newsboy yesterday afternoon to save the life of a girl whom he had never met, and then the leg was amputated.

Willie Rugh, known to the residents of Gary, Ind., as "the crippled kid newsie," smiled as he hobbled into the general hospital at Gary this afternoon. As he was led from the superintendent's office down the hall and into the disrobing room, adjoining the operating room the smile grew weaker. His lips were quivering.

"It ain't that I'm scared of being hurt," he said, "but this here leg and me's been pals now a long time, and—and I sorter hates ter say goodbye. But"—and suddenly straightening up, "come on, Doc, let's get busy."

Read of Accident.

Willie Rugh a week ago read of an accident that had befallen Miss Ethel Smith, who had been burned seriously about the body when the gasoline tank of her fiancé's motorcycle, on which she was riding, exploded. An examination showed that skin grafting was all that could save the girl's life. Further than this, the physicians knew that so much skin would be needed that there was little hope of obtaining enough with which the grafting might be done.

It was after reading this account that Willie went to the office of Dr. J. A. Craig, physician in charge of the girl. He offered to give his crippled leg for the grafting. When told that so much skin would be needed that it would necessitate am-

putation he hesitated a moment and then told Dr. Craig that he was willing to give up the leg.

"It isn't worth much to me, anyway," he explained, "and maybe it might save the little girl's life. I ain't never done no life savin' 'cause I ain't never had no chance with this here leg. I figure that this is my chance."

Saves Girl's Life.

The boy actually has saved the life of the girl. The skin was removed from his withered leg late this afternoon and then the limb was amputated. Not until he was led into the room in which the girl lay had Willie ever seen Miss Smith before.

The surgeon and his assistants, together with the several nurses, grouped about the girl's bed and watched her meeting with the boy curiously.

"You are saving my life," she told him. "I want to thank you."

"Shucks, it ain't nothing," he stammered. "This old leg don't amount to much anyway. Why, I'm just a news kid, and, besides, I don't need this leg much."

The boy and girl were laid on an adjoining table and the grafting operation begun. Both were placed under chloroform. When the 150 inches of skin from the boy's leg had been transplanted to the body of the girl, Willie was given a deeper inhalation of chloroform and his leg amputated just below the hip.

The entire work occupied only three hours' time.

Both will recover, although Miss Smith will be able to leave the hospital before the boy.

Staunton High School No More

The Staunton High school has officially passed out of existence. Prof. C. E. Oliver, State High school inspector taking up the charter Monday after making a thorough investigation and finding that the school has not been conducted along the proper channels laid down by the State School Commissioner.

Prof. Oliver stated that there was no good reason why the High school should not be maintained at Staunton, as he found the grade school there doing nicely, and the downfall of the High school is said to be due to factional differences which have arisen in recent years.

HALLOWE'EN NOVELTIES.

New postcards and mailing novelties at Rodecker's News Stand. Some are hand colored.

SAVES LEG OF BOY.

"It seemed that my 14-year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone, N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c at Blackmer & Tanquary.

CHANGING THE CAT'S FUR

A remarkable transformation of a cat's fur by temperature has been reported. A black cat was accidentally shut in the refrigerating chamber of a mail steamer in Sydney harbor, Australia, and was not discovered until about 32 days later, when the ship was off Aden. The cat was scarcely recognizable, the fur having become long and thick, changing to white on the back. Brought out in the intense heat of the Red sea, the heavy white coat rapidly fell out and the normal coat was restored.

Gem City Man Praises Tomato

Bob Ingersoll's flowery praise of whiskey, Senator vest's tribute to a dog, and many other pen sketches of articles, common every-day things, have become classics on account of their beauty of expression, but is remains for the editor of the Dayton Daily News to set forth the glories of the tomato, which he does as follows: "Blessed be the tomato—own cousin to the potato and a distant relative to tobacco. It traces its ancestry back to the time when the one great family was united, before the potato took to the ground and the tobacco spread its leaves for the consolation of those who find consolation in the fragrance of the flavor.

"These be tomato canning days—and tons of the slushy stuff are being poured into tins and glasses to please us in the days to come. A colorful, flowery, pleasing stuff it is, and undeffiled.

"Love apples' our ancestors called the tomato, and grew them in the garden for their beauty. But little children were warned against them, and grown folks considered them not as a diet. They were believed to be poisonous—just as the potato was once accused of producing cancer, and its cultivation decreed illegal and a menace.

"But toils have learned a lot these past few centuries. Instead of finding the tomato poisonous, they have found that it can not be rendered hurtful. It blends with everything that grows below the ground or beneath it. It adds a value to the flesh of fowl or fish, or flesh, and can be served at any hour of the day or night with greatest satisfaction.

"It is not even necessary to consult a cook book when considering tomatoes. They are good any way. Anything can be appropriately mixed with them. Handfuls of spices, cups of sugar or vinegar, chunks of fruits and vegetables—anything at hand can be cooked with tomatoes and the whole becomes a relish of delight. Tomatoes do not 'spoil' any other food; they improve it. No other food 'spills' tomatoes; it improves them. So we have a happy marriage always when the tomato is either bride or groom.

"The tomato crop never fails, either. They can stand a lot of rough usage, tender as are the plants. They take the sunshine or the shower becomingly, but, being Southern in their origin, they blacken and droop at the first touch of frost. However, they have been so industrious during the warmer weather, they have produced a burden of ripened fruit before the first frost comes.

"We are told that there are plenty of tomatoes at this time—and that they are being canned in abundance. Glory be! We shall have them spiced and flavored and ground to pieces and boiled to pulp and labeled catsup. We shall find them in the soup, pleasant sun-set isles upon a savory sea. We shall encounter them in the macaroni—Italy's greatest gift to man. We shall have them cooked with the bread left over from the morning meal—and sweetened with the flowery brown sugar of the Southland. We shall eat them in the salad, with the mutton and the fish. And as for the thick and tender steak, we hope to see it buried in them, with scarlet streams of tomato juice blended with the still more scarlet streams of juice of meat. Oh, it's going to be a pleasant winter with plenty of tomatoes."

NOT LIKELY TO SPOIL SCENE

Actor Willing to Guarantee He Would Make Decent Corpse as the Dead Julius Caesar.

Speculation is rife along the New York Rialto as to whether or not in William Faversham's production of "Julius Caesar" Fuller Mellish, who has been cast for the part of Cato, will actually appear in the oration scene. This is because of a quip about the retort of Sir Herbert Tree, which has just found its way across the Atlantic.

Tree is quite a stickler for detail, and although it is generally customary for the dead Caesar to be represented in the oration scene by a dummy, Tree, in his recent revival of the Roman drama, insisted that the actor cast for Caesar should actually appear upon the bier.

The Caesar of the play demurred, averring that he was subject to colds and that the drafts upon the stage might cause him to sneeze, thus spoiling the effect of the scene, to which Tree quickly and dryly retorted, "Never mind; in that case you'd be playing 'Julius Cnaesar.'"

To Mr. Faversham's solicitous inquiries Mr. Mellish has hastened to reply that he rarely sneezes, so the stage director can feel assured of a free rein.

The Hypocrite. Rev. George R. Lunn, the new mayor of Schenectady, says: "I don't preach 'Give to the poor,' but 'Stop taking from the poor.'"

Mr. Lunn, discussing this dictum

ANOTHER FREIGHT WRECK TIES UP THE D. T. & I.

Six Cars Smashed to Kindling Wood at Greenfield Early This Morning, Entailing a Loss of Several Thousand of Dollars. Traffic Will Be Resumed Tonight.

Bad track or bad order cars caused a big pile-up on the D. T. & I. railroad between the Greenfield depot and the overhead B. & O. bridge at Thriffton at six o'clock Tuesday morning, and a ten or twelve hour tie up of all traffic was the result.

The second 54 freight, in charge of Conductor O'Day formerly from this city, was coming down grade at Thriffton when a set of trucks near the middle of the train left the rails, and after cutting ties for some little distance caused a smash-up which reduced six cars to a pile of twisted steel and splintered timbers, while the contents of the six cars was scattered throughout the wreckage.

It is supposed that a broken flange or a defect in the track caused the wreck which will cost the road several thousand dollars. As the track was torn up for a considerable distance it was necessary to allow all freight traffic to congest, while the morning north-bound train due here at 7:53 was delayed at the wreck and awaited the 9:50 south-bound train, which met No. 2, made a transfer and returned as No. 2 while No. 2 returned south as No. 5.

The cars were piled up on the right-of-way eighteen feet in depth making one of the worst wrecks in recent years to handle.

Supt. Warner and a wreck train from Springfield passed through this city at 10:20 bound for the scene, and the work of clearing up the wreckage was commenced at once.

All cars have been pressed into service on the D. T. & I. railroad and it is hinted that a great many are being used which should be in the repair shop undergoing repairs to be placed in something like condition. Many freight wrecks have been predicted this fall because of the same state of affairs on other roads as well as the D. T. & I.
